Acme Software - Customer Policy Handbook

Acme Software builds custom web and mobile applications for small businesses. This handbook explains our policies on refunds, support, pricing, security and project delivery.

Version 2.1. Effective 1 January 2026. For questions, contact support@acme-software.example.

Acme Software is headquartered in Bengaluru, India, and serves clients in India, the UAE and Singapore.

1. Refund Policy

Customers may request a full refund within 30 days of purchase. Refund requests must be sent to billing@acme-software.example with the invoice number.

Digital products such as templates, ebooks and downloadable source code are non-refundable once downloaded.

Custom development projects are refundable only for milestones that have not yet started. Completed and delivered milestones are not refundable.

Approved refunds are processed within 7 business days and returned to the original payment method.

2. Support Policy

Support is available Monday to Friday, 9 AM to 6 PM IST. We do not provide support on public holidays in India.

Response times depend on the plan. Basic plan: reply within 24 hours. Pro plan: reply within 8 hours. Enterprise plan: reply within 1 hour, including a dedicated account manager.

Critical issues such as a production outage on the Enterprise plan are handled 24/7 through the emergency hotline.

To raise a ticket, email support@acme-software.example or use the dashboard help button.

3. Pricing and Plans

Basic plan: Rs. 15,000 per month. Includes 1 application, email support and monthly updates.

Pro plan: Rs. 45,000 per month. Includes up to 3 applications, priority support, and a monthly strategy call.

Enterprise plan: custom pricing, starting at Rs. 1,50,000 per month. Includes unlimited applications, a dedicated team and 24/7 emergency support.

All prices exclude 18% GST. Annual billing gives a 15% discount. Invoices are due within 15 days.

4. Data Security and Privacy

All customer data is encrypted at rest using AES-256 and in transit using TLS 1.3.

We store client data in data centers located in India. We never sell customer data to third parties.

Customers may request deletion of their data at any time. Deletion is completed within 30 days of the request.

Employee access to production data requires two-factor authentication and is logged and audited every quarter.

Security incidents affecting customer data are reported to affected customers within 72 hours.

5. Project Delivery and Timelines

Every project starts with a discovery call and a written scope document. Work begins after a 30% advance payment.

Typical timelines: a marketing website takes 2 to 3 weeks, a web application takes 6 to 10 weeks, and a mobile app takes 10 to 14 weeks.

Each project includes 2 rounds of revisions per milestone. Additional revisions are billed at Rs. 2,000 per hour.

After delivery, every project includes a free 60-day bug-fix warranty. Feature requests are not covered by the warranty.

Clients own the final source code once all invoices are paid in full.
